(a) A076, 50--60 km along the trace
raw dispersive estimate (rad at f_A)
distance from the trace (km, + north)
north block
south block (offsets' tie)
south block + 1 cycle
south block + 2 cycles
(b) D141, 20--30 km along the trace
raw dispersive estimate (rad at f_A)
distance from the trace (km, + north)
north block
south block (offsets' tie)
south block + 1 cycle
south block + 2 cycles
(c)
fake boundaries: 6082 windows, 8 scenes
D141: the rupture's windows
D040: the rupture's windows
A076: the rupture's windows
A162, no cut: the rupture's windows
D054, no cut: the rupture's windows
windows
e, cycles to add (per 20 km window)
(d)
corrected LOS change, + toward the satellite (mm)
distance from the trace (km, + north)
D141
D040
A076
